EDUCATION

Texas Christian University <i>B.S. Computer Science, Minor in Mathematics GPA: 3.4</i> • Honors: Dean's Honor List, College of Science & Engineering Bridge2Rwanda Scholar Perfect Score, Rwanda National High School Leaving Examination • Relevant Coursework: Data Structures & Algorithms, Linear Algebra, Operating Systems, Database Systems, Discrete Mathematics	Fort Worth, TX <i>Expected May 2027</i>
--	--

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C++, C, SQL, HTML/CSS
Backend: Python serverless API functions, REST APIs, JWT/cookie auth, PostgREST, webhooks
Frontend & Frameworks: React, Next.js, Tailwind CSS, Node.js
Cloud & DevOps: Vercel (serverless functions, Git-based CI/CD, environment/secret management), Supabase (managed PostgreSQL, Auth, Row-Level Security), Docker, Microsoft Azure AI Services, Snowflake
Databases & Tools: PostgreSQL, SQL, Git, Linux, macOS
AI & APIs: Claude AI (Anthropic Python & TS SDKs), OpenAI API, Stripe API, Geolocation APIs

EXPERIENCE

Wireless Testing Intern (Returning) <i>UL Solutions</i> • Extending Python automation framework to cover additional wireless protocols and test categories, building on 2025 internship work • Contributing to FCC/ISED compliance engineering deliverables for new client certification projects	May 2026 – August 2026 <i>Fremont, CA</i>
Wireless Testing Intern <i>UL Solutions</i> • Built Python automation scripts for FCC/ISED wireless compliance testing, reducing conducted unit test time by 67% (3 min → 1 min) and radiated unit test time by 75% (2 min → 30 sec) • Processed and validated compliance data for 100+ wireless devices , enabling rapid client certification turnaround • Authored engineering deliverables for 4 client projects , translating test results into structured compliance reports	May 2025 – August 2025 <i>Fremont, CA</i>
University Unions Supervisor <i>Texas Christian University</i> • Manage event-scheduling database for 84+ weekly events across TCU campus facilities • Supervise 50 student employees across Information Desk and Audio Visual Specialist teams • Serve as primary technical resource for AV systems and office technology troubleshooting	August 2024 – Present <i>Fort Worth, TX</i>
Freelance Full-Stack Developer <i>Prestige Limo</i> • Delivered a full-stack booking platform with Google Maps autocomplete, Stripe payment processing, and real-time driver assignment — replacing a manual phone-only reservation system and enabling 24/7 online bookings • Built an admin dashboard for centralized ride scheduling, payment tracking, and driver management, significantly reducing operational overhead for the business • Took the project from requirements to production-ready deployment within a 2-month engagement, handling both frontend UI and backend logic end-to-end	September 2024 – October 2024 <i>Remote</i>

PROJECTS

RideFlow <i>Python, Next.js, Supabase, Stripe, Google Maps, Tailwind</i> • Full-stack black-car booking platform with Google Maps autocomplete, Stripe payment intents with manual capture, driver assignment, and real-time ride tracking	Live GitHub
FinSage <i>Python, Next.js, Supabase, Claude AI, Chart.js, Tailwind</i> • AI financial coach that tracks transactions and budgets, then generates Claude AI-powered 30-day spending analysis with personalized recommendations visualized via Chart.js	Live GitHub
MindForge <i>Python, Next.js, Supabase, Claude AI, Stripe, Tailwind</i> • AI flashcard platform with Claude-powered deck generation, SM-2 spaced repetition algorithm for optimized retention, and Stripe-gated premium tiers	Live GitHub
TimeLock <i>Python, Next.js, Supabase, Claude AI, Resend, Tailwind</i> • Time capsule app that seals messages with a future unlock date, delivers AI-generated oracle hints via Claude, and notifies recipients via Resend email on reveal	Live GitHub
AutoVision AI <i>Python, Next.js, Claude Vision, Computer Vision, Tailwind</i> • AI car identification app with 267 iconic vehicles (1955–2024) across quiz, head-to-head comparison, year-guessing, and live AI Scanner modes powered by Claude Vision	Live GitHub
VideoSumm AI <i>Python, Next.js, Claude AI, YouTube API, Tailwind</i> • Paste a YouTube link and get AI-generated key notes, full transcript, chapter detection, topic tagging, and an interactive chat interface powered by Claude AI	Live GitHub
