Education

Texas Christian University — Fort Worth, TX
B.S. Computer Science, Minor in Mathematics | GPA: 3.49 — *Expected May 2027*

- **Honors:** 1st Place, Neeley AI Hackathon | Dean's Honor List, College of Science & Engineering | Bridge2Rwanda Scholar | Perfect Score, Rwanda National High School Leaving Examination
- **Relevant Coursework:** Data Structures, Analysis of Algorithms, Database Systems, Programming Language Concepts, Web Technologies, Cybersecurity, Software Engineering, Cloud Computing, Mobile App Development, Linear Algebra, Discrete Mathematics, Unix/Linux System Administration, Computer Organization & Architecture, Operating Systems

Technical Skills

Languages: Python, JavaScript, TypeScript, Java, C++, C, SQL, HTML/CSS
Backend: Python serverless API functions, REST APIs, JWT/cookie auth, PostgREST, webhooks
Frontend & Frameworks: React, Next.js, Tailwind CSS, Node.js
Cloud & DevOps: Vercel (serverless functions, Git-based CI/CD, environment/secret management), Supabase (managed PostgreSQL, Auth, Row-Level Security), Docker, Microsoft Azure AI Services, Snowflake
Databases & Tools: PostgreSQL, SQL, Git, Linux, macOS
AI & APIs: Claude AI (Anthropic Python & TS SDKs), OpenAI API, Stripe API, Geolocation APIs

Experience

Junior Engineer Intern — September 2026 – Present
Iternal Technologies

- Developing the Iternal Workforce enterprise AI application and centralized Skill Library for managing reusable AI skills and prompts
- Integrating application workflows with platform capabilities for identity, audit logging, storage, AI services, and secure enterprise operations
- Contributing to an event-driven architecture using NATS/JetStream while designing, documenting, and implementing software solutions across the SDLC

Wireless Testing Intern — Fremont, CA
UL Solutions — *May 2026 – August 2026*, *May 2025 – August 2025*

- Built and extended Python automation for FCC/ISED wireless compliance testing across multiple protocols and test categories
- Reduced conducted unit test time by **67%** (3 min → 1 min) and radiated unit test time by **75%** (2 min → 30 sec)
- Processed and validated compliance data for **100+ wireless devices** and contributed to certification deliverables for new client projects
- Authored engineering deliverables for **4 client projects**, translating test results into structured compliance reports

University Unions Supervisor — August 2024 – Present
Texas Christian University — *Fort Worth, TX*

- Manage event-scheduling database for **84+ weekly events** across TCU campus facilities
- Supervise **30 student employees** across Information Desk and Audio Visual Specialist teams
- Serve as primary technical resource for AV systems and office technology troubleshooting

Freelance Full-Stack Developer — September 2024 – October 2024
Prestige Limo — *Remote*

- Delivered a full-stack booking platform with Google Maps autocomplete, Stripe payments, and real-time driver assignment, replacing a manual phone-only reservation system with 24/7 online booking
- Built the admin dashboard for ride scheduling, payment tracking, and driver management, taking the product from requirements to production-ready deployment in a **2-month** engagement

Projects

TimeLock | *Python, Next.js, Supabase, Claude AI, Resend, Tailwind* — Live | GitHub

- Time capsule app that seals messages with a future unlock date, delivers AI-generated oracle hints via Claude, and notifies recipients via Resend email on reveal

AutoVision AI | *Python, Next.js, Claude Vision, Computer Vision, Tailwind* — Live | GitHub

- AI car identification app with **267 iconic vehicles** (1955–2024) across quiz, head-to-head comparison, year-guessing, and live AI Scanner modes powered by Claude Vision

RideFlow | *Python, Next.js, Supabase, Stripe, Google Maps, Tailwind* — Live | GitHub

- Full-stack black-car booking platform with Google Maps autocomplete, Stripe payment intents with manual capture, driver assignment, and real-time ride tracking

MindForge | *Python, Next.js, Supabase, Claude AI, Stripe, Tailwind* — Live | GitHub

- AI flashcard platform with Claude-powered deck generation, SM-2 spaced repetition algorithm for optimized retention, and Stripe-gated premium tiers

FinSage | *Python, Next.js, Supabase, Claude AI, Chart.js, Tailwind* — Live | GitHub

- AI financial coach that tracks transactions and budgets, then generates Claude AI-powered 30-day spending analysis with personalized recommendations visualized via Chart.js

Certifications

Generative AI Professional Certificate | *Snowflake* — Verify | Jul 2026
Docker Foundations Professional Certificate | *Docker, Inc* — Verify | Jul 2026
Microsoft Azure AI Essentials Professional Certificate | *Microsoft* — Verify | Jun 2026
